

Notes

- Focusing text on recentering Chance (can definitely cut for concision)
- The home page could just be a picture honestly
- Figuring out how to make the boxes
- Subpages for each album (or at least another page)
- Png of the 3
- Maybe have the body text a bit smaller to make it
- A consistent margin might make it easier to make sure stuff lines up (more so talking about the images bc the text boxes are lined up already in the mockups)
